

EDWARD IJERUH

Web Engineer | Frontend Developer

Ibadan, Oyo, Nigeria · ijeruh20@gmail.com · edwardijeruh.dev

PROFESSIONAL SUMMARY

Web Engineer with 3+ years of experience building and shipping production web applications and digital products using React, TypeScript, JavaScript, and Next.js. Experienced in owning frontend features from implementation through API integration, responsive UI development, debugging, and refinement. Strong background in building reusable component systems, data-driven interfaces, authentication flows, CMS integrations, and user-focused experiences. Comfortable working with product, design, and engineering teams to turn requirements into maintainable, production-ready solutions.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

State & Data: TanStack Query, Zustand, React State, REST APIs, Axios, Fetch API, Firebase, Firestore, Sanity CMS

Forms & Validation: React Hook Form, Zod

Integrations & Services: Brevo, Cloudinary

Tools & Workflow: Git, GitHub, Vite, npm, VS Code, Chrome DevTools

Performance & Quality: Mobile-First Development, Lazy Loading, Cross-Browser Testing, Responsive Testing, Lighthouse, Accessibility, Debugging

Other: Framer Motion, Cloudinary, React Router

PROFESSIONAL EXPERIENCE

Principal Engineer | Liora - Remote

November 2025 - Present

- Lead the design and development of production-grade digital platforms for investment and financial services.
- Architect and develop responsive React and TypeScript applications with reusable, maintainable frontend architecture.
- Integrate CMS technology to support dynamic content management and client-facing digital platforms.
- Build interactive, responsive interfaces that align with business requirements, design systems, and user experience goals.
- Drive projects across the development lifecycle, from technical implementation and feature development through testing, SEO, optimization, and deployment.
- Collaborate with clients and stakeholders to translate business requirements into scalable digital solutions and make informed technical decisions.

Frontend Developer | LanderCraft Technologies - Remote

April 2025 - November 2025

- Build and maintain production web applications using React, TypeScript, and modern frontend technologies.
- Develop reusable UI components and responsive interfaces from product requirements and design specifications.
- Integrate frontend applications with REST APIs and manage data-driven user experiences.
- Implement frontend features across different application flows while maintaining consistency, usability, and responsive behavior.
- Investigate and resolve UI, data, and integration issues using browser developer tools and network debugging.
- Improve application performance, accessibility, and cross-browser compatibility through iterative testing and optimization.
- Collaborate with designers and engineers through Git-based workflows, pull requests, code reviews, and feature delivery.
- Contribute to technical decisions around component structure, frontend architecture, and implementation tradeoffs.

Business Applications Contributor | Ibadan Electricity Distribution Company (IBEDC)

January 2024 - October 2024

- Supported the development and maintenance of internal business applications used for operational workflows.
- Implemented frontend improvements based on user feedback, business requirements, and operational needs.
- Assisted with API integrations and application data flows.

- Investigated application issues and supported debugging and resolution of frontend problems.
- Collaborated with business stakeholders to understand requirements and translate operational needs into application improvements.
- Supported system documentation and user training initiatives.

Frontend Developer Intern | Cinfores Limited

July 2021 - September 2022

- Developed responsive web interfaces and reusable frontend components as part of a development team.
- Implemented frontend features and layout improvements based on product and design requirements.
- Performed functional, responsive, and cross-browser testing to identify and resolve UI issues.
- Assisted with debugging frontend issues and refining existing application experiences.
- Worked within Git-based development workflows while contributing to ongoing product development.

EDUCATION

B.Sc. Computer Science

Afe Babalola University, Ado-Ekiti

2019 - 2023 · Second Class Upper Division (2:1)
